LET'S MAKE A DIFFERENCE

DID YOU KNOW

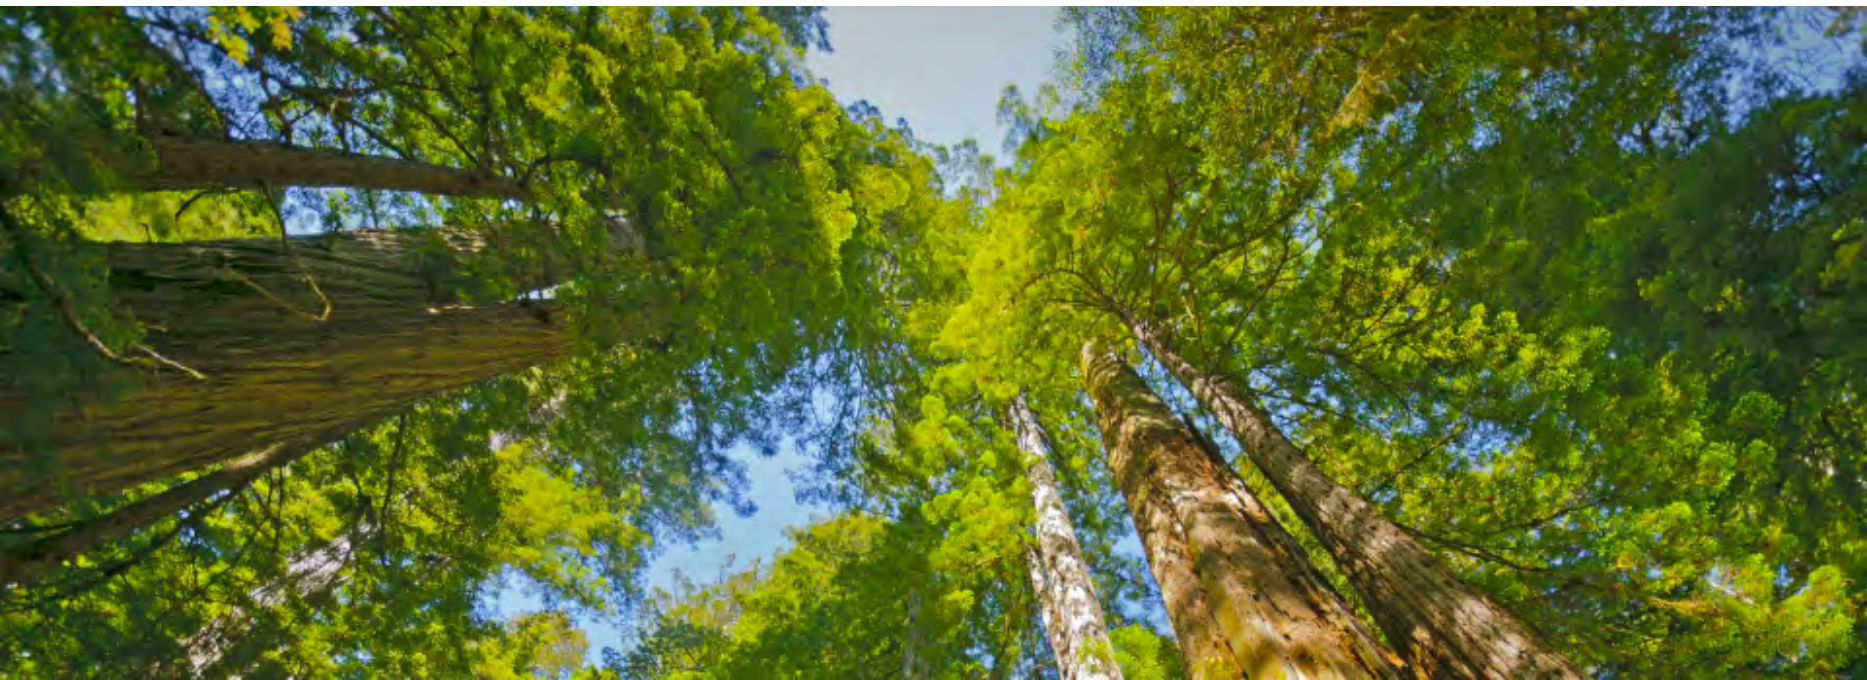

- 30% of the world is covered by Forest.
- 1.3 million square kilometres of forest was destroyed between 1990 and 2016.
- 46% of trees have been felled since mankind starting cutting down trees.
- 17% of the Amazon Rainforest has been cut down in the past 50 years and the figure continues to rise.

WE CARE

As a business we have sustainability processes in place, but we want to take our efforts up a notch - which is why we have partnered up with 'Tree Nation'.

ABOUT TREE NATION

Tree Nation is a voluntary organisation whose mission is to rejuvenate the world's forests by enabling companies and citizens to donate money towards planting trees in locations all over the world.

GAELITE'S PLEDGE

We have pledged to plant 1200 trees every year in the Peigney region of France, which has been ravaged by Bark Beetle attacks that is spreading through France.

CO2 OFFSET OF 1200 PINUS NIGRA TREES

Yearly CO2 offset	→ 96,000 Kg per year
CO2 offset period	→ 0 - 20 years
Average natural life span	→ 500 years

SEEDS OF CHANGE

We're really looking forward to seeing the impact that our planting is going to have on the region.
